

# EJI Health

EJI is launching a program to provide direct healthcare services to people transitioning out of Alabama state prisons. EJI believes that access to high quality healthcare is essential to reducing poverty and is a basic human right. Furthermore, access to behavioral health services and treatment for chronic disease can have a large impact on the likelihood of a successful re-entry and can reduce recidivism and promote public safety.

## **What services do we offer?**

- Consultation with a physician with full medical history and physical exam
- Review of previous health records and medications
- Point of care basic laboratory tests to screen for diabetes, high cholesterol, anemia, HIV and HCV and can evaluate electrolytes, kidney disease and liver function
- Refills and basic prescription medications

## **How much does it cost?**

- Our services are completely free of charge

## **Where are we located?**

- The clinic is located at 421 St. Luke's Drive, Montgomery, AL 36117

## **How to schedule an appointment?**

- Call EJI Health at 334-239-9740 or email [ejithealth@eji.org](mailto:ejithealth@eji.org)
- *Please note: clinic is appointment only, currently unable to support walk-ins*

## **Do patients need to prepare anything prior to the visit?**

- No preparation is necessary, but it can be helpful for the doctors if patients bring any medical records and medications with them to review
